Emergency Contact and Health Apps

REFERENCE

WHY THESE TOOLS

- Education on the different apps and tools that help responders identify and properly treat patients who are unresponsive
- Some devices may be just a QR code; some may be a Vial-of-Life type device

WHAT YOU MAY FIND

- VitalID
- Onelife iD (a URL and PIN are printed on the original page — not carried into the template)
- iPhone Health App
- Samsung Health App

PHONE HEALTH APPS

- iPhone Health App: swipe up on the lock screen, then tap where the original's screenshot indicates
- Samsung Health App: swipe up on the lock screen, then tap where the original's screenshot indicates

PEARLS

- An unresponsive patient's phone or ID device may be the only source of identification and health information

Take Home Message:

An unresponsive patient's phone health app, QR code, or Vial-of-Life device may identify them and guide treatment — check for one.
