STARS Kids

REFERENCE

WHAT IT IS

STARS: Special Needs Tracking and Awareness Response System

A one-of-a-kind program designed to improve emergency care for children with medical complexities

WHO IT IS FOR

- Children with medical complexities — 'our most fragile children'

HOW IT WORKS

- Personalized emergency care plans written specifically for EMS and emergency department staff
- Intensive training
- A centralized web-based system that integrates with 911 dispatching systems

THE GOAL

To make emergency care safer for children with medical complexities

Take Home Message:

STARS gives EMS and ED staff a personalized emergency care plan for medically complex children, integrated with 911 dispatch.
